

YCRC Time Trial 26/09/20

Start and Finish Locations

This document is to enable timing teams to set up for start and finish at consistent locations and also to make competitors aware of locations. Crews may not hear a call or horn when they cross either the start or finish line so should be aware of the locations.

There will be a volunteer advising crews to wind down once they have crossed the finish line.

Start

To get to Maddies by bike. Proceed upstream on cycle path Minster side of the river. Pass under Clifton Bridge. Keep to cycle path until a crossroads at Rawcliffe Meadows

Turn left and cycle along the track to enter the field. Keep going straight ahead and you will arrive at Maddies landing.

The start is at the downstream end of Maddies landing.

Timer to stand where the cross is and the overhanging tree branch is the start. Timer must stand **directly opposite** the start and call “Now” when the bow ball crosses the start. The call is for the purposes of the 2nd Timer and crews should be aware they may not hear the call.

View of Start line from bank directly opposite.

Finish

The finish is close to the clubhouse near the usual regatta finish.

Proceed upstream from the clubhouse on the station side of the river. Walk past an open white (ish!) gate on your left

As you look across the river the finish is marked by a tree directly to the right of a set of steps. Tree is indicated by a cross on the photo below. There are steps nearby to walk down to the towpath out of the way of general public.
